1987-88 — The Season in Review

Communications and cooperation. They were the key areas of concentration by the American Bowling Congress during the 1987-88 season.

The season saw new programs such as the Proprietor Information Panel and Regional Proprietor/Local Association Conferences. There also was the continued expansion of the Local Association Officers Training Conferences and Association and Proprietor Briefings.

All were important in the dissemination of ABC messages to local association officals, members, proprietors and the media. All helped lead to better cooperation and understanding of all viewpoints.

Bowling in general received more publicity than ever as it prepared for its Olympic exhibition Sept. 18, 1988. Mark Lewis and Debbie McMullen, products of the TEAM USA program coordinated by ABC, the Women's International Bowling Congress and the Young American Bowling Alliance, represented the U.S. in Seoul, South Korea where Lewis finished sixth and McMullen placed seventh.

The 1987-88 season was full of many other important events. The following is a capsule look at many of those events and the people who made them possible:

AUGUST 1987

Lewis, of Wichita, Kan., earned the title of 1987 National Amateur Champion by virtue of his gold medal finish in the second TEAM USA Tournament in Detroit. Joining him on the men's team were Kevin Doane, Owosso, Mich.; Harry Mickelson, Kodiak, Alaska; Bob Daugherty, Dayton, Ohio; Jack Nelson, Mandan, N.D., and Mike Landrith, Phoenix, Ariz. Heather Nelson of West Brattleboro, Vt. was the women's National Amateur Champion but later dropped off the team for personal reasons. McMullen, of Denver, replaced her as she joined Therese Abair, Long Beach, Calif.; Kim Terrell, Daly City, Calif., Linda Kelly, Dayton, Ohio; Linda Graham, Des Moines, Iowa, and Maureen Webb, North Andover, Mass. on the women's team.

Earlier in the month, the U.S. returned to its winning ways in the Lee Evans Memorial Tournament of the Americas by winning five titles in the 25th annual event in Miami. 1987 TEAM USA members Dan Nadeau, Rick Steelsmith, Cora Fiebig and Sandra Jo Shiery combined to win national all events and mixed foursomes. In addition, Shiery won women's all events, Nadeau the men's singles and Nadeau and Steelsmith the men's doubles.

ABC Honorary Member Cliff Munson died at age 81 while former ABC Public Relations staffer Ray Nelson died at age 69.

The American Bowling Congress Hall of Fame opened its doors to five new members in 1988. Inducted in Jacksonville, Fla. were (from left) Eddie Jackson, Mort Luby Jr., Bill Tucker, John Guenther and Chris Schenkel.

SEPTEMBER 1987

Bill Tucker, Chris Schenkel and Mort Luby Jr. were elected to the ABC Hall of Fame by the Hall Board. Tucker was elected in the performance section while Schenkel and Luby were elected in the meritorious service division.

OCTOBER 1987

Education awareness highlighted the month as the inaugural Proprietor Information Panel convened in Milwaukee with proprietors from around the country joining ABC and WIBC officers to discuss mutual concerns of the sport and possible solutions. Also beginning this month was the first of 14 Regional Proprietor/Local Association Conferences while the LAOTC program held its 18th national conference at Bowling Headquarters. The LAOTC program is designed to train ABC local association officials to better serve bowlers.

NOVEMBER 1987

Remo Fornasari of Italy and Irene Gronert of The Netherlands captured the men's and women's titles, respectively, in the 23rd AMF World Cup in Kuala Lumpur, Malaysia. U.S. entrants Mark Scroggins and Donna DiTrani were 22nd and 14th in their respective divisions.

ABC Hall of Famer Lou Bellisimo died at age 81.

DECEMBER 1987

Johnny Guenther was voted to the ABC Hall of Fame on the national ballot, while Eddie Jackson was elected from the non-professional ballot.

JANUARY 1988

ABC rules regarding lane distribution to be measured by the lane dressing take-up device and reader went into effect. The equipment was the result of proprietors and industry leaders asking ABC to develop a "black and white" system of determining the distribution of dressing on a lane, in effect to remove subjectivity from lane inspections. ABC distributed nearly all of the 2,400 take-up devices to local associations prior to Jan. 1. Every local men's association with more than 100 members received one take-up device at no cost.

Marshall Holman became the first non-winner to ever lead the voting for the Bowling Magazine All-America team. At the same time, Steelsmith became the first non-professional to gain first-team honors.

FEBRUARY 1988

The 1988 TEAM USA completed a very successful week at the U.S. Olympic Training Center. The week-long visit included a series of lectures and seminars from USOTC experts.

The 85th ABC Tournament began in Jacksonville, Fla. There were 7,560 teams and 38,000 individuals entered.

Corpus Christi, Texas was awarded the 1992 ABC Tournament by the ABC Site Selection Committee. It earned selection over Las Vegas and El Paso, Texas.

MARCH 1988

Delegates to the 1988 ABC Convention approved continuation of the optional lane dressing rule provided there is dressing from edgeboard to edgeboard effective August 1, 1988 and recognized summer league averages, thus creating equity for all ABC members. All told, the delegates adopted 31 amendments, deferred six, rejected three with three others withdrawn prior to the meeting. The delegates elect-

The Chilton Vending team of Wichita, Kan. shined in the 1988 ABC Tournament in Jacksonville, Fla. as members (standing, from left) Mark Jensen, Paul Waliczek, Gordon Vadakin, (kneeling, from left) Mark Lewis and Rick Steelsmith won the team all events title. Lewis and Jensen also took the doubles crown while Steelsmith won individual all events.

ed Eugene E. Adams of Cincinnati to be the 75th ABC President, succeeding Edward W. Sweeney of St. Louis. They also elected Boyd M. Pexton of Salt Lake City, Utah to the newly created position of President Elect and Gerald F. Tessman of Maplewood, Minn as Ninth Vice President. Three new Jurisdictional Directors were elected — Paul H. Egbers, Richard H. Horst and Michael J. Repas-Reed to serve the Chicago, St. Louis and Madison, Wis. areas, respectively.

Tucker, Schenkel, Luby Jr., Guenther and Jackson were inducted into the ABC Hall of Fame during special ceremonies at Jacksonville's Prime Osborn Convention Center.

Brad Jonietz of San Antonio was named the ninth recipient of the Chuck Hall Star of Tomorrow Award. He earned a $1,000 scholarship as the Young American Bowling Alliance member who distinguished himself on the lanes, in the classroom and in the community.

APRIL 1988

Bowling officially became a medal sport for future U.S. Olympic Festivals beginning in 1989. The action was taken by the U.S. Olympic Committee Executive Board and House of Delegates based on the acceptance of bowling as a Pan American Games medal sport beginning in 1991.

MAY 1988

Sweeney's term as ABC President ended when Adams officially took over May 1.

Del Ballard Jr. of suburban Dallas earned $43,600 when he won the ABC Bud Light Masters title by defeating amateur Keith Smith of Fremont, Neb. 236-186. It continued a trend of major victories for Ballard, who also captured 1987 titles in the U.S. Open and Brunswick Memorial World Open.

Tracy Lambert, a freshman at Vincennes (Ind.) University, earned the Association of College-Unions International all events title in Jacksonville, Fla.

A record 186 ABC seniors from 49 states, three Canadian provinces and Puerto Rico competed in the National Seniors Championships in Jacksonville.

Led by Lewis, Chilton Vending of Wichita captured the team all events title in the 1988 ABC Tournament. Lewis also joined Mark Jensen to win the doubles championship while teammate Steelsmith earned the all events crown. The Minnesota Loons No. 1 of St. Paul won its fourth ABC title as it captured the team event. Steve Hutkowski of Hershey, Pa. was the singles winner while Prudential Insurance of Newark, N.J. earned the Booster team crown.

JUNE 1988

The Federation Internationale des Quilleurs saw its membership grow to 76 nations with the addition of Cuba and Bulgaria.

ABC Hall of Famer Joe Joseph died at age 70.

JULY 1988

ABC membership for the 1987-88 season finished at 3,313,491 who competed in 121,648 leagues in 2,819 local associations. ABC certified 8,279 centers, including 97 new ones.

AUGUST 1988

A busy month of international competition began when Doane captured the prestigious men's all events title in the 26th annual Tournament of the Americas. Lewis finished fifth. Doane and Graham combined to win mixed doubles with Lewis and Kelly eighth. The group won national all events and was third in national foursomes.

All four next traveled to Melbourne, Fla. to join the other TEAM USA members for the Bowl Down to determine the U.S. man and woman for the Pre-Olympic Qualifier later in the month. Lewis and McMullen took top honors and continued their hot bowling in the Qualifier to earn the Olympic trip.

The week after making the Olympics, Lewis and McMullen both qualified for the 1989 TEAM USA at the TEAM USA National Finals in Milwaukee. Also qualifying on the men's team were: National Amateur Champion Darold Meisel, Milwaukee; Brad Briggs, West Palm Beach, Fla.; Ron Mohr, Anchorage, Alaska; Gordon Vadakin, Wichita, and Butch Cullum, Hollister, Calif. Qualifying with McMullen on the women's team were: National Amateur Champion Patty Ann, Bloomington, Ill.; Graham, Abair, Webb, and Lynda Norry, Concord, Calif.

ABC Director Michael J. Williams died at age 45.

SEPTEMBER 1988

The new-look BOWLING Magazine hit the streets as the 130,000 circulation publication offers readers a different insight into the sport and the organizations involved with it. The August-September issue features content and graphics changes in tune with the desire to emphasize the people and events of the sport.

Lewis and McMullen fell short in their attempt to bring medals home in the 1988 Summer Olympics. Lewis averaged nearly 199 while McMullen averaged nearly 190. Kwon Jong-Yul of South Korea captured the men's gold medal while Arianne Cerdena of The Philippines won for the women.

1988 ABC Convention Annual Meeting Condensed Minutes and Proceedings

The 1988 Annual Delegates Meeting of the American Bowling Congress convened at 9 a.m. March 18 in the Civic Auditorium in Jacksonville, Fla. with President Ed Sweeney of St. Louis presiding and 1,317 delegates in attendance.

A tribute was paid to William Vitense, Dr. Joel Bernhard, Clifford Munson and Clarence Andersen, ABC Board members who passed away and "Joe Bowler," who depicted all ABC members who passed away in the past year.

Jacksonville Mayor Tommy Hazouri made it apparent the ABC Tournament and Convention were part and parcel of the city's vibrant growth. Calling bowling "America's pastime," the mayor said the entire city was greeting the bowlers with open arms, not only because of the $35 million windfall it would provide the city, but the awareness that those attending are learning of the city's great attributes.

Women's International Bowling Congress President Helen Baker pointed to the joint efforts between her organization and ABC.

Bowling Writers Association of America President Dick Evans explained his organization's new programs, including the Collegiate Bowler of the Year, and urged the delegates to write to their newspapers for coverage of bowling in the Olympics.

Bowling Proprietors Association of America President Sonny Frantz dealt with high scores and the lane dressing legislation. He also emphasized continuing the spirit of working together to solve problems related to the entire bowling industry.

Professional Bowlers Assn. Commissioner Joe Antenora spoke about the improved senior tour and the battle for ratings on the weekly TV show.

National Bowling Council Executive Director Lance Elliott had a slide presentation on Olympic Bowling Celebration '88.

National Bowling Hall of Fame and Museum Executive Director Gerald Baltz presented the successes of the past year.

A very positive outlook on the future of the sport came when Young American Bowling Alliance Executive Director Ed Clarkson reported his organization's membership was up, and he praised the delegates for assisting junior programs throughout the country. He also presented the winner of the Chuck Hall Star of Tomorrow award, Bradley Jonietz, 17, of San Antonio.

President Sweeney made presentations to the winners of the ABC Five Year Service Award: Cortland (N.Y.) Bowling Assn., Davenport (Iowa) B.A., Ithaca (N.Y.) B.A., Midland (Mich.) B.A., Portland (Ore.) B.A., San Antonio B.A. and Springfield (Ill.) B.A.

Sweeney gave the President's report, highlighting his year in office. He spoke of the cooperation in the bowling industry and meetings he had with local associations.

ABC Executive Secretary-Treasurer Roger Tessman reported on the increased coverage bowling has been receiving in the media, the progress of international competition and the importance of the legislative session.

ABC Director and NBC Limited Distance Dressing Committee Chairman Bob Halleen reported on the findings of his committee.

ABC Past President Joe Dahl presented the Nominating Committee's candidates for the various offices (all one year terms commencing May 1, 1988):

Past President-Life Member
Edward W. Sweeney, St. Louis

No nominations were received from the floor. Tessman explained the voting procedure and told the delegates they would be provided ballots.

(A recess was declared at 11:50 a.m. The meeting was reconvened at 1:30 p.m.)

AFTERNOON SESSION

PRESIDENT SWEENEY: We now will begin the legislative session. And for this session, handling the amendments and resolutions, our appointed Legislative Chairman, the Mayor of Jamestown, N.D., James Lusk.

LUSK: In the next few hours, you will make decisions that affect our game for many years, for over 3.5 million ABC participants and nearly 100 million worldwide participants.

Dr. Edward Leone will be our parliamentarian again this year.

As has been the custom in the past, and with your concurrence, the motion on the floor will be the recommendation of the Board of Directors.

Amendment 1 concerns membership lists.

During the year, the Rules Committee has studied this and has proposed Amendment 27.

Amendment 27 establishes that membership lists are the property of the ABC and the local association, and that the association Board of Directors may authorize the use of this list.

It is recommended for adoption by the Board of Directors. Is there any discussion?

NELSON RAY, Gr. Baltimore B. A.: Gentlemen, we use the new computer package for keeping records of our bowlers. At this time we do not input the telephone number, nor the mailing address of our league bowlers. We do not plan to do so in the near future.

At this time I can see no reason for the need of ABC to have a national membership list, period.

I respectfully request that you forget this proposal.

MIKE KETTELHUT, Palm Bay, Fla.: I am a member of the Rules Committee.

There have been instances in the past where officials at the local association level have used membership lists for other than the pursuit of the association business.

The proposal last year was a rule that would preclude unauthorized use of membership lists by local associations. That motion was deferred because a member of a local association also is a

member of the parent charter organization, ABC. And there is no valid reason that we could conceive of why a local association would have the power to deprive its parent association of access to membership lists.

The Rules Committee considered the proposal, resulting in the proposed Amendment 27.

It is difficult for me to conceive, in light of pursuit of one of our primary objectives, which is providing our membership with information and being able to capture the membership, that we would be deprived of knowing who belongs to us.

The sole purpose of the legislation is to deny its use to unauthorized people or for unauthorized use.

TONY CERK, Nation's Capital Area B.A.: We are against the adoption of this amendment. When I filled out my sanction application, I never gave anybody permission to use my name on a mailing list. And I'm sure many of you feel the same way as I do. It is an invasion of privacy, as far as I am concerned.

The next step after you establish these lists for mailing purposes, you will be in here asking if we will go out and earn money for budgeting purposes to sell these lists.

Everybody gets junk mail like I do, and you have to look through all of it, because a lot of it looks just like your important mail.

The Nation's Capital Area B.A. is against anybody maintaining mailing lists for whatever purpose.

LUSK: If I may, I think one thing that we are missing is that this is not necessarily a mailing list. It is a membership list.

KETTELHUT: I think there may be some confusion about the intent. And the intent and purpose is purely and simply to prevent unauthorized use of mailing lists — unauthorized use.

There are many reasons why membership mailings would be a benefit to the local association — for membership information, solicitation for support for association goals and for the establishment of programs.

This legislation is not intended for illicit or illegal use or junk mailing.

VENTURA BARATA, Gr. Bridgeport-Norwalk (Conn.) B.A.: I recommend that we adopt this, because this will prevent abuse of the lists of our members and it means it will only be properly used if they comply with this amendment.

RAY: I have to take exception to my colleague for the stated purposes of this proposal. The editor's note and the reasons for proposal specifically state that it be a mailing list, and that it authorizes ABC to establish a membership list.

They can call it whatever they want. You are authorizing ABC to establish a national membership list if we pass this proposal.

CECIL CALDWELL, Joliet (Ill.) B.A.: About two years ago I requested from the ABC, through my field rep, the addresses of other secretaries in Illinois associations. I was refused. Now, I don't see why you want them now, if I couldn't get them then.

KETTELHUT: I cannot conceive of the parent organization being placed in the position of Big Brother, and several of you seem to view it in that respect. I am appalled at this attitude.

BEN PALUMBO, Buffalo, N.Y.: On behalf of the Rules Committee, I would like to point out what is happening here is exactly the opposite of the purpose of this rule. This rule was first proposed from the field. The primary purpose was to prevent this from being used in an adverse way by local associations.

The ABC policy has consistently been protection of these lists, and not ever being used for junk policies.

This gentleman proposed it primarily to limit the use, not to expand the use.

The only reason the proposal didn't pass the first year, when asked for deferment, was because his limitation was so great, that it would even limit the use of it by ABC.

It is a membership list which we have to have nationally, or we are not going to be able to send anybody information.

We are in a day and age where we are trying to give our membership as much information as possible, maybe a copy of Bowling magazine to everyone, if we can get it into the budget.

Our Board of Directors determined that the word mailing was incorrectly used and it should have been membership. However, since it was an editor's note, we didn't feel it was necessary to amend it.

Many times a local association secretary gives a list to every restaurant in your area or whatever. This will preclude it. The Board of Directors will have to make the decision. I recommend it.

RAY ARNOLD, ABC Past President, Jackson, Mich.: Many of you were in the Board of Directors meeting the other day, and heard of the possibility that we would have a mailing of Bowling magazine to each sanctioned bowler.

One of the problems in doing this, and even getting started and talking about it, is the fact that we have no mailing list to use to give the magazine to the bowler. We would have to send it to the association, and have the association make the delivery to the bowler.

LARRY WALTON, Gr. Baltimore B.A.: We are against this. If you pay attention, defer Amendment 1. It does protect the list. It stays within the local association.

CLIFTON THOMAS, Chicago Metropolitan B.A.: Subterfuge is subterfuge regardless what name or label you use. If you are going to give me a magazine, and I am already subscribing to one, you are costing me money. If you are going to send me some literature and send it to me personally as Clifton Thomas, the bowler, your cost is going to be prohibitive.

It is more logical that you send the information to the associations if it is such a large volume, and let them then distribute it, and it would be much cheaper.

J.J. GARRETT, Gr. Orlando B.A.: If we are supposed to cooperate with one another and work as a family between ABC, WIBC and the BPAA, I think it is great that we still have that mailing list, so that when we are possibly going out to do surveys and try to find out why the bowlers are dropping from this game, we have a list to send them letters, surveys, etc.

I think with the proper discretion, the local association Board of Directors will take care of the proper authorization for the use of that list.

VINCE VALLONE, Buffalo B.A.: I have to admit I misunderstood this whole thing when I read it, and some of the arguments. I think we are making too much about nothing.

My name is on many, many mailing lists, and this is the least of my problems.

I recommend voting for it.

BERT LINDGREN, Spokane, Wash.: I am totally amazed at the misunderstanding by some of the people with regard to a proper membership list. Many of these people belong to other organizations, who have a membership list. For instance, the Elks, Eagles and Moose Lodges, and principally your own telephone company.

When companies want a mailing list in their area, they go directly to their telephone administrators and they get that list, and they mail you all the junk mail you want.

The ABC or the local association's purpose for this is not to mail any junk mail. I think that we are taking a step in the right direction in having a membership list for our parent organization.

BOB MORRIS, Houston: I call for the vote.

LUSK: The recommendation by the board is for adoption of Amendment 27. This takes a two-thirds vote.

Those in favor say aye. Those that are opposed, no. Once again. Those that are in favor, please stand up. Those that are opposed, stand.

The motion carries.

CHUCK CARR, Mother Lode (Calif.) B.A.: I call for a division.

LUSK: You will use ballot No. 1.

The Ballot Committee please come forward. They are: Ted Huggins, Wy-Jon County, Kan.; Chuck Lockridge, Baltimore, and Tony Quaranto, Niagara Falls.

While they are counting the votes, please go to proposed Amendments 2-12, except No. 3, which make changes in various areas of the rule book to conform the ABC Constitution to the requirements of Chapter 181, Wisconsin State Statutes of the Wisconsin Nonstock Corporation Law.

With your concurrence we will take this as a package. The recommendation by the Board of Directors is for adoption.

Is there any discussion?

Seeing none, all in favor say aye. Those that are opposed, no. The motion carries.

Proposed Amendment No. 3. There has been an amendment to this. In paragraph 1, delete the

In paragraph 3 after the word "election," add the words "or a meeting of the Board of Directors, whichever comes first."

The motion before you is for the adoption, as amended.

Is there any discussion?

Hearing none, all those in favor say aye. Those that are opposed, no.

The motion carries.

Proposed Amendment 13 has to do with the Certification Review Committee to comport with our joining WIBC in the equipment specifications and certification areas. This is recommended for adoption by the Board of Directors.

Is there any discussion?

Apparently there is none.

All in favor of adoption say aye. Those that are opposed, no.

That motion carries.

Proposed Amendments 14-16 involve proposals adopted at the 1987 convention of ABC and WIBC, to become effective Aug. 1, 1988, and in order to provide WIBC the opportunity to submit similar proposals to this jointly adopted legislation at its 1989 convention, the Rule Book Study Committee requests deferral for one year.

Is there any discussion?

Hearing none, all those in favor of recommendation of deferral say aye. Those that are opposed, no.

That motion carries.

Amendment 17, proposed by the Planning Committee, establishes an Officers Committee to act on behalf of the Board of Directors, where failure to act would be detrimental to the best interest of the Congress.

Recommended for adoption by the Board of Directors.

Is there any discussion?

There being none, all those that are in favor say aye. Those that are opposed, no.

By your action you have adopted Amendment 17.

Gentlemen, we will consider 18-21 as a package. They make refinements and improvements to assist implementation of legislation which will become effective Aug. 1, 1988. It also adds the procedure to reduce total noncompliance determination for centers that demonstrate continuing uninterrupted lane dressing compliance.

Proposed by the Equipment Specifications and Legal Committees. And it is recommended for adoption by the Board of Directors.

Is there any discussion on 18-21?

WALTON: I believe it looks like a word is missing in Amendment 19. It says: "Any use of a bowling pin that does not meet specifications.' Shouldn't it be ABC specifications?

LUSK: I assume the Equipment Specifications and Legal Committees took for granted we would understand it was ABC specifications. If you want to make an amendment to that, we can certainly do it.

WALTON: I propose an amendment to insert ABC in No. 19.

LUSK: Pardon me. I am given a note that after Aug. 1, it would be ABC/WIBC.

WALTON: That's fine, ABC/WIBC.

LUSK: You have heard the motion to amend. Is there a second?

PALUMBO: I second it.

LUSK: We have a second. Any discussion on the amendment to the amendment?

Hearing none, all those in favor signify by saying aye. Those that are opposed, no. We have amended proposed Amendment 19.

We will now go back to our original motion, consideration of 18-21 as amended as a package. Is there any discussion on that? There appears to be none. All those in favor say aye. Those that are opposed, no. By your action you have recommended adoption of proposed Amendments 18-21 as amended.

You have before you proposed amendments having to do with lane dressing. They are divided into what we will call the 1988 legislation and the 1989 legislation, and we will take them individually.

The 1988 proposal, effective Aug. 1, 1988: Dressing must be distributed from edgeboard to edgeboard, but no dressing may be applied beyond 24 feet from the foul line. Following any application, there is no limit in the variance in the amount of dressing across the lane.

Does anybody care to speak to that?

TOM MC KAY, Warren, Mich.: Earlier today you saw the NBC LDD Committee presentation, and also I am sure that most of you also attended the Equipment Specifications Seminar, and you were given the results of tests that were conducted by the Equipment Specifications Department.

Because of these tests, the Equipment Specifications Committee feels that the numeric values are correct in the second proposal and should provide similar playing fields for both alternatives.

However, in the coming year, if data shows that a refinement is necessary, we will have time to implement these changes.

And we ask you: Please do not get hung up on the numbers that are presented to you, because in the next year we will either support them or we will come before you with the necessary minor refinements.

The primary reason for delay in implementation of the second portion is to allow all local association officials and proprietors to become totally familiar with the rule and its limitations, as well as knowing how to properly use the take-up device and the reader.

We would like you to look at the intent of these proposals. The real discussion and vote today is whether the proposals of the Equipment Specifications Committee are going in the right direction, that being the need to control dressing distribution as part of alternative two.

JERRY NETHERTON, Sacramento B.A.: We are here for the betterment of bowling, and not just to reduce the scoring in the United States or across the world. This proposal is only here to reduce scoring. If this doesn't work, you will find some other restrictive rule.

And the first rule doesn't do anything, because there are no numbers. We have a reader, we have the take-up device, and what is oil?

You've put us right back in the same situation that we were two years ago when we passed the original alternative one rule, that had the take-up device and the reader with it.

And the proprietors came up with limited distance dressing. Until the proprietors address this rule, we are going to be blamed for reducing scoring nationwide.

The only reason we are discussing these rules is because of high scoring. The Bowling Proprietors

of America are forcing us to address it.

Our proposal should not be here just because of high scoring. It should be for the betterment of bowling.

BOB KEMP, Gr. Richmond (Va.) B.A.: The gentleman is quite right. However, this legislation is not going to help at the present moment a great deal, mainly because the proprietor can tell us: "I have dressing on the outside of the lane."

If there is a smear there, there's dressing, but it may be so little that you are going to get the same reaction that you are getting right now. I used to be out checking lanes maybe once or twice every couple of months, I am out three and four times a day checking lanes and scores.

The integrity of bowling is going down the drain with this kind of scoring which is not normal. The skill has left bowling when you are allowing this to happen.

Something must be done in order to put dressing on the outside of the lane which is somehow measurable, so we know what is going on.

BARRY GREEN, York Co. (Pa.) B.A.: I feel that this amendment should be amended. There should be something that would specify how much dressing is a minimum.

BUDDY BLANKENSHIP, Roanoke (Va.) B.A.: I have one question concerning what if this is rejected. Will we go back to the conditions where we only have alternative one and no alternative two?

It is my understanding that the alternative two limited distance dressing was a one-year trial period.

JERRY KOENIG, ABC Group Executive-Organizational Services: The present rule allows alternative one or alternative two.

Therefore, if the proposal is rejected, you will be back to what was in the book before, alternative one and alternative two, now the present rule.

BLANKENSHIP: Wasn't that adopted for just one year?

KOENIG: No, there was no time limit when that was adopted.

JIM BEVINS, Gr. Knoxville (Tenn.) B.A.: If I heard Sonny Frantz right this morning, he said that some of the proprietors were abusing the intent. And I kind of got out of his message that he wanted us to legislate a requirement that they would have dressing across the entire width of the lane.

LLOYD STONER, Lansing (Mich.) B.A.: Two years ago we passed a rule that put into effect definitive, measurable amounts of additive to the dressing, so that the lanes could be measurable, and ABC could come along and identify problem areas.

Now we are into a two-stage problem now. We heard this morning the gentleman from BPAA state that they would accept and could accept the first part of this proposal.

I think irregardless of what we do today, next year we are going to be placed in the same situation as we were two years ago.

We have to decide what we want from bowling. Do we want the scores of yesterday to be measurable and to stand up, or do we want the scores to run rampant, as they are nowadays?

Gentlemen, my suggestion is to reject this and bring a new proposal on the floor that puts us back to where we were two years ago with one alternative.

LEO MAGNUS, Los Angeles B.A.: Gentlemen, for those of you who are conversant with present lane dressing applications, you must be aware of the fact that they are asking for not even a trace, just a smear. It would surely make a difference of verification for our bowlers, for our associations, and I highly recommend that this be passed.

RICH HORST, Gr. St. Louis B.A.: We are talking about both amendments at one time, and maybe that's not the greatest thing to do. On the '89-90 proposal, this morning we heard that for anything to be put out, it should be attainable, bowlable and maintainable.

At the present time the LDD Committee has told us they don't have enough statistics basically to make sure that it is attainable.

They need more time to study it. We need more education of the proprietors and the local associations to determine what is on the meter. We also need the technology to be improved. Sonny Frantz pointed out that he had trouble with the machine.

I think no matter if we did adopt the second half of this proposal, the committee would be back next year to change it, to refine it, so why even bother with it in the first place?

Let's get good data, be prepared. We don't go out in society and business on a guess. You know the facts before you do something.

I propose that we accept the first half and reject the second half.

JACK SMITS, Green Bay (Wis.) B.A.: I think the first proposal is absolutely ludicrous. It tells us nothing as to what amounts of dressing can be used on the outside.

President Ed Sweeney of St. Louis addressed the Convention before the delegates began the task of deciding the fate of their sport.

I would like to make an amendment to the amendment that says we have to use a minimum of three units on the outside, not to exceed eight units to the center.

LUSK: Is there a second?

WALTON: I will second that.

LUSK: We have a motion and a second.

PAUL KNOWLES, Albany (N.Y.) B.A.: There seems to be one word that keeps coming up in the world of bowling, and that is the word integrity. As far as our association is concerned, this limited dressing has just about eliminated that altogether.

Earlier this morning we had the presentation about increasing or targeting the senior members of our bowling community to get their participation up.

Well, we in our association, alone, have lost close to 200 members so far this year, because they can't handle the short oil situation. It has created total chaos in our area. And I think it is about time we get back and get rid of this nonsense and get on to bowling where it was fun and get back to where we were two years ago.

LUSK: I am going to call the Conference Committee together, along with the proposer of the amendment. Those people are: Donald Smith, Dayton, Ohio; Bill Blackburn, Memphis, Tenn.; Jim Bohlken, Tabb, Va.; Ted Melonis, ABC Legal Committee Chairman; Ben Palumbo, ABC Rules Committee Chairman, and, Boyd Pexton, ABC Legislative Study Committee Chairman.

We have the results of the vote on proposed Amendment 27. There were 1,228 ballots cast, requiring 810 to approve. There were 837 for adoption and 391 for rejection.

Proposed Amendment 27 is adopted.

LUSK: If you will turn to deferred Amendment 1, the Board of Directors recommends rejection. Is there any discussion?

Hearing none, all those in favor of rejection say aye.

Those that are opposed, no.

By your action you have rejected proposed Amendment 1.

Turn to page 19 of your amendment book. Proposed Amendment 22 had to do with Article 7, Management, ABC, the ABC Constitution to amend the status of the ABC President, making the office nonjurisdictional during his term. The proposer is Rich Horst of St. Louis and it has been withdrawn.

Amendment 23 on page 20, Article 5, Annual Tournament, provides local associations the authority to exclude bowlers classified as professionals from participating in local association championship tournaments. Please also refer to Amendment 28 dealing with state tournaments.

Both of these proposals have been recommended for rejection by the Board of Directors. Is there anybody that cares to speak to these issues?

GEORGE BARTON, Hebron (Ind.) B.A.: We had basically four reasons for submitting the proposals. In our state association we have two touring professional bowlers who enter our tournament, and in the past three years they have earned an average of $400 prize money for their $35 entry fee.

These professionals would not be allowed to bowl on the same team in the ABC/National Tournament.

Article 2, Section 5 of the objectives of the Congress state: "It shall encourage the creation and development of events for amateurs and foster programs to increase bowling skills among amateurs."

This proposed amendment is one tool we could use to indicate to our vast majority of our 3.5 million members that the ABC is not going to cater to just a few professionals, which amounts to less than 1.1% of our membership.

The proposal was written in such a manner where the state associations or the local association could do nothing at all if it wasn't a problem; could exclude all professional bowlers; could exclude touring professionals, or create or reduce the participation of professionals to any number on a four or five-man team.

But what it really does, it gives the state or the local association more control of their tournament.

MAX WEINSTEIN, Louisville, Ky., a member of the Rules Committee: I speak in support of the recommendation for rejection of the proposed Amendment 23 for the following reasons:

Bowlers become local association members upon payment of a membership fee. As members they are entitled to all the rights and privileges which such membership offers, including the right to participate in association championships.

Further, this exclusion could be the basis of an undefendable legal action by those so excluded.

Associations have other remedies to address the proposers' concerns, such as handicap adjustments or separate division for all high average bowlers, regardless of whether or not they are professionals.

Therefore, if you have a card, you are entitled to all of the amenities that you paid for.

MIKE WHALEN, Battle Creek (Mich.) B. A.: I think about the time we start excluding any members we are in a lot of trouble. Before you know it, someone can have an amendment to exclude Blacks or exclude Jews. And we just can't have that.

I recommend that these proposals be deferred or rejected completely.

BARTON: The exclusion was not in membership, just for participation. And it was just to put the control back at the local level where it probably should be.

When small associations are mandated to run a tournament with a nine-team participation, because the same people won them over and over again, then it is just knocking your head against the wall.

BERNIE HAW, Palm Beach Co. (Fla.) B.A.: The rules that we have now are not to prevent membership. All of our rules are to safeguard all of our members, not to exclude one particular sect.

And as we all know, whether we like it or not, one of the main driving forces in all of our local associations are the professional bowlers that bowl in regional tournaments, not just the touring pros. And these are the guys that are in the house every day, and most of them run the pro shops. We need their support. We need them in our tournaments.

I think you are looking at a problem and trying to find the wrong solution. Our association has a scratch division. We get some of these guys to bowl, and that way they know that they are part of our membership.

We have also increased our handicap to try to offset the edge that some of you feel that they have.

Also the reason you run a tournament is so that the best man may win. And if it happens that the guy has enough ability, he has worked darned hard to develop that talent, then so be it, and let him win.

JOHN BARNETT, Gr. Columbus (Ohio) B.A.: In our tournament, we have developed three divisions — a booster, a regular and a classic division.

I don't think that anyone has a right to tell us that we cannot establish 30 divisions or put people in certain divisions. I think we should be very careful when we go to a decision that will affect everybody in a different way.

LUSK: We have before us the motion to reject the proposed Amendments 23 and 28. All those that are in favor say aye. Those that are opposed, no.

By your action you have rejected proposed Amendments 23 and 28.

Proposed Amendment 24 is to make a change in Article 6, Item 2, Board of Directors, paragraph E, the local association constitution. Base representation of the local association annual meetings on membership, rather than playing strength.

The motion before you is the recommendation for adoption by the Board of Directors.

Is there anybody who cares to speak to that?

FRANK BARNHART, Gr. St. Louis B.A.: The quorum section of the requirements indicates the percentage of the council that must be in attendance to constitute a quorum. Under subsection B, the wording in the existing rule has been changed to the wording that appears there now, which I believe was an error.

Currently the proposed amendment states: 25% divided by five, the same thing as 5%, which would require only 5% of the council to be present for a

quorum. I don't believe that this was the intent.

Therefore I wish to propose an amendment to the amendment, which would delete "divided by five," under Subsection B. That would leave it stating just 25%.

GENE COLEMAN, Gr. Indianapolis B.A.: I am the proposer of this, and if you will notice, the current reading says 100 teams. I am changing that to 500 members. So to keep the same percentage, you would have to divide it by five, because now, instead of counting 100, you are now counting 500. This will give you the same number required for your delegate strength.

BARNHART: Perhaps we can refer this to the parliamentarian. I believe the percentage figure for a quorum applies to the number of people in the group which is trying to meet the quorum. Now, the 25% would apply to the number of people on the council delegates, not the number of people in the association.

I understood his reasoning, but I believe clarification is needed. Instead of "divided by five," I would propose that we change it, amending it to say "25% of the delegates."

TESSMAN: This is in associations where they have from 251 members to 750 members. And the thrust of this is that up to 500 members, you will require 25% of the 500, which would be 125 individuals. Then you would divide that by five, which means you would need 25 for a quorum. Therefore, the gentleman's arithmetic is correct.

Now, you will notice that if you have 501 or more members, the minimum for a quorum is 26 delegates. This is just a calculation based on the number of people in an association.

Now, you will notice that when you get to the larger associations, you are doing it by league count, not by individual count.

BARNHART: Could I request a clarification then, that to change this would be a change that could be made by the Executive Secretary-Treasurer that "of the members" be inserted after 25% so that there is no misunderstanding by other people reading the rule.

TESSMAN: That can be accomplished by clarification.

CARR: I would like to propose an amendment to this amendment.

At the end of Article 11, I would like to add: "of the registered delegates." At the end of the first paragraph in Article 12, I would like added: "Each delegate must register with the local association secretary."

Your quorum would be 25% of those registered with the association secretary. If a person takes the time to register, the odds are that he will show up at your annual meeting.

LUSK: I think it is outside the purview of the proposed legislation which is numbers and/or percentages, and we are not trying to say who it is or who has to be registered.

If you wanted to bring that up in a future proposal, you could do that.

Is there any other discussion on Amendment 24?

It is recommended for adoption by the Board of Directors.

WESLEY KIDWELL, Indianapolis: I am not clear whether any of these amendments were seconded and I would like to speak on the amendment itself.

As a member of the Rules Committee, we have taken a survey to find out how this would affect an association. With 50 teams or less, practically no change at all; 51 to 150 teams, three out of five will require more to make a quorum; 151 or more teams, two out of five would require more for a quorum.

LUSK: Any other discussion? Hearing none, all of those in favor of the recommendation for adoption say aye. Those that are opposed, no. By your action you have adopted Amendment 24.

Amendment 25 has to do with Article 6, Organization and Government, items 12 to 16, vacancies in office, local association constitution. Delete the presidential authority to fill vacancies in the office of director.

This was proposed by the Board of Directors of the New York (N.Y.) B.A. and is recommended for adoption by the Board of Directors.

Is there any discussion?

CHARLEY EICHLER, New York (N.Y.) B.A.: This does not delete presidential authority, it just limits it, because your president still will make the appointment to fill the vacancy in directorship.

Your council delegates currently elect the Board of Directors. We did not feel that the president should unilaterally be able to appoint directors to fill vacancies, but rather the Board of Directors should be the ones to approve the president's selection.

JOE GARDELLA, Gr. Detroit B.A.: I am opposed to this, because I feel that an incoming president has the authority to make appointments. I don't think you need to get approval of the Board of Directors. Each man that reaches the height of presidency should have the authority to make proper decisions, one of them appointments.

BUD HOWELL, Idaho Falls, Idaho: I am a member of the Rules Committee which favors this amendment. There are many associations that do elect the president one year at a time over many consecutive terms. He could actually stack the deck in his favor. We also feel that any vacancy in any office should be filled only with the approval of the Board of Directors, which would keep unity and harmony within the organization.

EICHLER: Until last year, we had antiquated bylaws with a provision for 100 directors. Currently we only have about 30 directors. If our president wanted, he could have filled the 70-odd vacancies with anybody. This is a much fairer and equitable way of doing it.

JEFFTHROE WALKER, Trenton, N.J.: I call for a vote on Amendment 25.

LUSK: There appearing to be no other discussion, the recommendation on the motion before you is for adoption.

Those that are in favor, say aye. Those that are opposed, no.

That motion carries. By your action you have adopted Amendment 25.

Proposed Amendment 26 has to do with Article 8, the duties of the Board of Directors to require local associations to maintain summer league averages for bowlers participating in leagues which have completed 10 weeks of their schedule by the date the association has established for submission of league averages.

The motion before you is for adoption by the Board of Directors.

Is there any discussion?

BARNHART: I wish to speak to some of the reasons for this amendment, as well as some of those against it.

If this amendment is adopted, it will eliminate the current treatment of summer league bowlers as second-class members.

As we talked earlier about all members being entitled to bowl in local and state tournaments, this would give all of our members all of the benefits that they should have.

If summer league averages are recognized, it stands to logical reason that more summer leagues would choose to sanction with ABC, which will be more members.

If summer league averages are recognized, tournament participation by those people who did not have a winter league average should increase, including local and state tournaments.

Currently a summer league bowler can pay dues every other year. For example, he could bowl in the summer of 1989 and buy a card which would be good through the whole next season. When that bowler begins participating in tournaments as a result of now having a recognized average, it will be quite a different scenario.

While this exact amendment has not come up before, other similar amendments have been discussed at previous conventions.

One objection has been the number of games bowled in a summer league. I feel the number of games issue should be addressed on the 21-game requirement which we accept from winter leagues.

Another objection in the past has been that summer leagues are more social compared with winter leagues. I personally feel that the great distinction between social and competitive leagues today is between mixed and non-mixed leagues. I think most mixed leagues tend to be more social, both winter and summer.

One that hasn't been stated, but I think it is the primary reason for objection is the amount of work involved in keeping track of some of the averages. I think we should remember that we are supposed to be a service organization, service to our members, the bowlers.

We are providing this service to winter league bowlers who are paying their dues. We should provide the same amount of work for the summer league member.

ANONYMOUS DELEGATE: We were bound by our annual delegates meeting to oppose this amendment, all ABC members should be entitled to all ABC services but this appears to place additional responsibility on the office of the local association secretary, especially in the area of average verification requested by tournament managers.

We feel that most bowlers are honest and responsible for the use of their highest average in tournament entries. Since the summer league average may not be published, it may easily be submitted as a lower average. A subsequent search by a local association could result in the bowler's disqualification and loss of prize money.

LARRY SCHAFER, Macon, Ga.: I am a member of the Rules Committee which is in favor of this proposal, and I would like to give you our reasons.

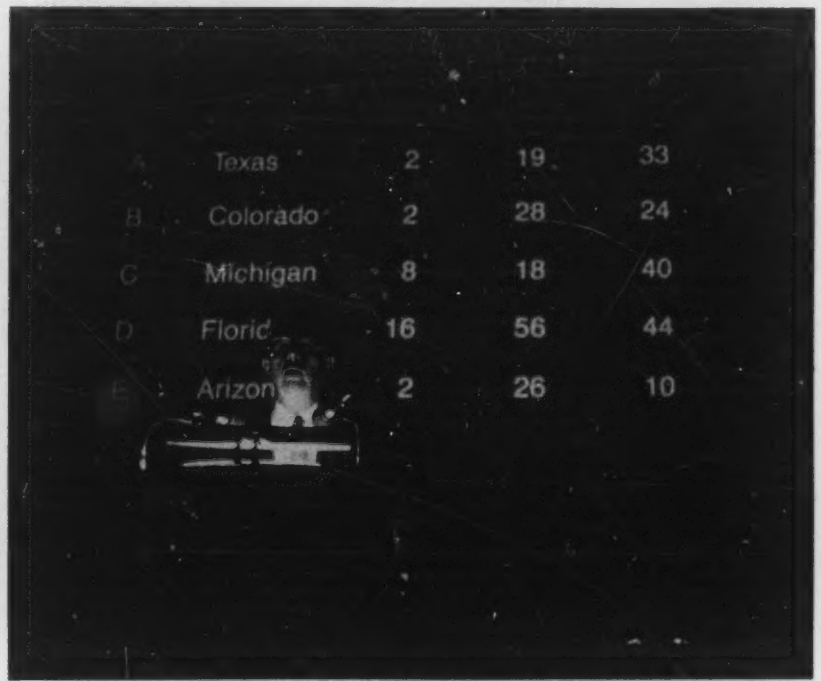
A member pays the same dues regardless of whether it is the summer or winter league, and he is entitled to the same services.

Many areas, such as the Sun Belt area, bowl year round, and there is no difference between a winter and a summer league schedule.

Many associations presently maintain summer league averages and have indicated that it is not difficult.

An average reflects a bowler's ability, regardless of what time of the year the individual participates in a league to establish that average.

Presently WIBC has a rule recognizing summer league averages and verifying averages for mixed tournaments. A wife may have a verifiable average from a summer league and the husband not.



ABC Director-At-Large Bob Halleen presented the findings of the National Bowling Council Limited Distance Dressing Committee, of which he was chairman.

JACKIE KAISER, Seminole Co. (Fla.) B.A.: At the present time our summer secretaries turn in averages, and I keep them on file in case any tournaments might want to use it. I have no problems with this, and I feel this amendment should be adopted.

GARRETT: As secretary of one of the top 100 associations, it is very simple to maintain summer averages with the computer.

If this bowler has paid his dues, he is entitled to all the services.

BARATA: I think we should adopt this. When anyone competes in our association tournament, and he is a winner, we give him an affidavit which must be signed by his league secretary certifying his average. We have no problem.

JERRY WASSERMAN, Omaha (Neb.) B.A.: I can't tell you how many times I have bowled in the summer league and noted a very exceptionally good bowler averaging 200 plus, but find out he is carrying 184 or 185 average in the record book.

Our secretary works 12 months a year, and I don't see that there is any extra load to keep these records. And I think it is about time that this amendment be put into place where it belongs.

ERNIE PETERSEN, Eastern Long Island (N.Y.) B.A.: We accumulated the summer league averages this year. We had no difficulty in putting the book together. They are available to the 1,600 secretaries this coming winter.

BILL LUZZO, South Jersey B.A.: I am the tournament director and assistant secretary of our association.

We only have 15,000 bowlers. We ask for a rejection.

CLAYTON BAILEY, Tallahassee (Fla.) B.A.: We have had trouble getting averages from summer league secretaries. Being a college town, they just bowl in the summer and they are gone. We recommend rejection.

ED HARRIS, Kansas City B.A.: Our association is supporting the proposed amendment.

It feels that this would balance the services to be received by both summer and winter league bowlers.

CLYDE KEMMERER, Wichita (Kan.) B.A.: You may be missing the wording of the proposed amendment, that being that it says the date as set by the local association, as early as March 1. As a result, if you do not desire to keep a summer league average, set it up for March 1 and you will get away from it.

LUSK: We will have the question. The recommendation is for adoption by the Board of Directors. Those that are in favor of the recommendation say aye. Those opposed say no. By your action you have adopted Amendment 26.

Numbers 27 and 28 we have acted on.

Amendment 29 has been withdrawn by the proposer.

Amendment 30 concerns supplemental fees.

When the supplemental contest was conducted, the league's requirement that the local association be represented on the Operating Committee and the association authorization to withhold approval of such programs.

Further, allowing an increase in the operating costs of such contests to a maximum of 20 cents per entry.

It is being proposed by the Rules Committee. The motion before you is for adoption by the Board of Directors.

Is there any discussion?

There appearing to be none, all those in favor of adoption say aye. Those opposed no.

The motion carries and you have adopted Amendment 30.

Amendment 31 establishes two 11-in-a-row awards, one for the first 11 strikes; one for the last 11 strikes, proposed by Bernie Vozar of Cleveland.

The motion before you is the recommendation of the board for adoption. Is there any discussion?

VOZAR: The proposal I had before you last year for establishing two 11-in-a row awards included 298 and 299 games and many of you had concerns about taking something away from the bowlers. As you can see, the proposal before you leaves these two major awards intact. This proposal will upgrade our present awards program.

And as you can see, the ABC Board of Directors recommends adoption. I urge you to vote for its passage.

GEORGE ZEIDELL, San Diego: I represent the Marketing and Public Relations Committee which concurs with Mr. Vozar's recommendation, and we ask for adoption.

LUSK: Any other discussion?

There appearing to be none, those in favor of adoption signify by saying aye. Those that are opposed, no. By your action you have adopted Amendment 31.

Amendment 32 regards inspection and reporting procedures for ABC awards, increasing the scores requiring inspection in all categories for national team scores and state and local scores.

It was proposed by Nick Hinrichs of Milwaukee and it is recommended for adoption by the Board of Directors.

Is there any discussion on Amendment 32?

There appearing to be none, all those in favor of the adoption say aye. Those opposed no. By your action you have adopted Amendment 32.

Back to the proposed amendments following Amendment 21, there was to be an amendment to the amendment — following any application there may be no less than three units nor more than eight units of dressing.

We are declaring that the amendment to the amendment is out of order, because it is more restrictive.

We are now back to the original proposed amendment, which would become effective Aug. 1. Dressing must be distributed from edgeboard to edgeboard, but no dressing may be applied beyond 24 feet from the foul line. Following any application, there is no limit on the variance in the amount of dressing across the lane.

The motion before you is the recommendation of the Board of Directors for adoption.

CY WOOLF, Tampa B.A.: I would like to appeal that decision from the chair.

LUSK: We have an appeal of the decision. Do we have a second?

BOB HENNESSEY, Nation's Capital Area B.A.: I will second the motion.

LUSK: The motion would take a majority vote. Is there any discussion on the motion to appeal the chair's decision?

WOOLF: I ask your parliamentarian for instruction as when the decision of the chair is questioned, the chair turns the gavel over to somebody else, and then we will listen to you and to him and then vote.

LUSK: I am told by the parliamentarian that in the event of an appeal, the chairman does not leave the chair.

The motion is the appeal, whether it can come before you or not. I said it could not.

WOOLF: Robert's Rules states when the decision of the chair is questioned, you can only listen to two people, the chair and the one that objects to your decision.

I have been reading that book for too many years, and that's the way it should be done.

LUSK: Dr. Leone says the two who can speak are you and I, or whoever makes the appeal.

Those that are in favor of repealing the chair's decision say aye. Those that are against it say no.

We are now back to the original proposal, which is to be effective Aug. 1, 1988. Is there anyone that cares to speak?

EDWARD LEAHY, Eastern Long Island (N.Y.) B.A.: I think it is fair to say one of the main problems we are encountering with this so-called high score dilemma is that of the image of our sport, and most of us agree that has diminished.

We have heard the axiom that it isn't how, it is how many. Oh, but it is how. Standards must be met. The issue is not competency, but morality.

I think we are possibly addressing this high score situation in the wrong context. We are talking technology, but the real issue is bowling and the image of it.

There are many who would come into a sport and take advantage of whatever edge they can get.

The problem with our image is the high scores, limited distance dressing and blocks. It has changed the situation where we have invited into our sport those who would take advantage and would do all in their power to perhaps find an edge in order to beat those who would prefer the moral way to play the game.

In addition, I would like to point out this is strictly the men's bowling problem. And I think it is time that we all bite the bullet and forget about how we are going to oil lanes and replace the surface with a surface that promotes integrity, sportsmanship and true learning, and close the door on those who would take advantage of limited distance dressings and blocks and crowns to restore bowling to what it should be, a high-level sport bowled by high-level people.

LUSK: I think that's the dream of all of us.

JOHN DAVIDSON, Griffin, (Ga.) B.A.: A couple of things that come to mind here. We didn't have the problem of pros in our tournament until we went to limited distance dressing, and now everyone can qualify. It is a problem. It kind of happened overnight.

But we've got many new bowlers, people that just didn't participate before.

There is no doubt that the dynamics of the new weight blocks and polyurethane balls have made a significant impact on the scoring.

To take it away overnight would just really not be fair to everyone involved. The only way to do this, it seems, is to go at it with the logical plan that is set forth here.

At this point our association strongly supports the '88 legislation, and then to come back and look at it in 1989.

We have to take it away a little bit at a time and restore the integrity.

WALTON: I would like to make the amendment read: A minimum of two units of dressing must be distributed from edgeboard to edgeboard, but no dressing may be applied beyond 24 feet from the foul line. Following any application there is no limit on the variance of the amount of dressing across the lane.

LUSK: Does anybody care to second that motion?

MIKE MARTELLO, Eastern Long Island (N.Y.) B.A.: I second it.

LUSK: You have before you the amendment. Again, this is outside the parameters, so I am going to have to rule that out of order as we did the other one.

Is there any discussion?

MIKE LASTOWSKI, Cecil-Harford Co. (Md.) B.A.: As far as the legislation for this August concerning the edge-to-edge oiling of the lane, I have a little unusual perspective which I would like to give you, coming from the fact that I condition 4,000 lanes in

Delegates took advantage of the Jacksonville Landing's many restaurants during their lunch break before delving into the Legislative Session.

my company every day.

I sat yesterday in a seminar and saw a graph where the honor scores had increased approximately 38% this year. And so I contacted our home office and said, "Well, how much are we up?" We are up only about 17½. And I think there is a significant reason why our increase is much lower than the national increase, and that's because our particular lane conditioning philosophy is that we will oil the lanes edgeboard to edgeboard, and that we will strip the lanes edgeboard to edgeboard.

So what I am saying to you is we've got enough proof that oiling edge to edge will effectively lower the scores. It will not solve the entire problem, that's why we have legislation for next year.

But the edge-to-edge rule will definitely be a step in the right direction. And I urge you to adopt that proposal.

LUSK: There appears to be no other discussion.

You have before you the proposed amendment. The recomendation is for adoption by the Board of Directors.

Those that are in favor say aye. Those that are opposed, no.

The ayes have it, and you have recommended the adoption of that amendment.

We will go to the proposed amendment effective Aug. 1, 1989, which in effect says: All dressing used for sanctioned competition must meet ABC/WIBC specifications. A minimum of three units of dressing must be distributed from edgeboard to edgeboard for the entire distance it is applied. Following any application, dressing distribution across the lane also must comply with one of the alternatives in front of you.

Is there any discussion on this amendment?

HAROLD DAWSON, Upper Shenandoah Valley (Va.) B.A.: I have been bowling for about 35 years, and I don't see many bowlers throwing their ball out to the edgeboard which is the number one board. I need some explanation as to why we are talking about edgeboard instead of maybe the number two board or three board. Could we have an explanation on that?

The issue here is that there shall be dressing across the full width of the lane, including the edgeboards.

GREEN: You have already rejected two amendments on the first proposal because of restrictions. I don't see how you can come up with the figures now on the units when you don't have anything to go on. I make a motion that this amendment be deferred to '89.

LUSK: You have heard the motion. Do we have a second?

LASTOWSKI: I second the motion.

LUSK: All right. You have heard the motion for deferral and the proper second. Is there any discussion?

LASTOWSKI: I think we have to defer this if we have any logic. Again yesterday we heard that these parameters, the six, eight and 10 units, were based on looking at the results of about 15,000 lane inspections.

Well, I really wonder whether analyzing results of lane inspections in an office really addresses those three criteria we are supposed to keep in mind, which are attainability, bowlability and maintainability. And I don't think I want to make that decision sitting in an office.

The National Bowling Council had 72 houses in their limited distance dressing study.

So it makes more sense to me to see if we can't get some houses conditioned to these suggested parameters for a year and come back at Wichita with the true scientific league backed-up figures, and then get the thing behind us with rule change right then and there.

You put it in this way now, and we are going to condition to that level. Let us test it and find out what the true numbers should be.

LUSK: Any other discussion on this motion for deferral? Hearing none, all those in favor of deferring say aye. Those that are opposed, no. By your action you are deferring that portion of the amendment.

WOOLF: I suppose that further study will be done and a report rendered.

LUSK: Yes.

Amendment 33 pertains to special awards, to allow a bowler to be eligible for 100 pins over game average and 150 pins over series average awards, regardless of whether or not the scores are eligible for other awards.

It is recommended for adoption by the Board of Directors.

DONALD ROBERTS, Somerset-Hunterdon (N.J.) B.A.: I proposed this legislation. I am the secretary of the Somerset-Hunterdon and the New Jersey associations. This amendment does several things.

The ABC awards program actually is the bowlers' award program. It is paid for and legislated by the bowlers through their delegates, and the ABC acts as our intermediary in running the program. There are two sections to the program. The honor scores and the special awards.

It is my feeling that any bowler who can be eligible for an award should be entitled to that award.

It also is my contention that awards should be one per year for the honor awards and for every category of the special awards. Seven years our association has issued 475 century patches with only seven duplications, about 1.3%, out of 435, 150 pins over average. We have had four duplications, less than 1%.

ZEIDELL: Our Marketing and Public Relations Committee concurs with Mr. Roberts' request. We feel we are only concerned with a few patches, and we agree to adopt it.

GARY SHINDLER, New York (N.Y.) B.A.: I agree with Mr. Roberts on his intent, and I agree with the proposal. However, I disagree with just one point, limiting of the award to one per year per bowler, because maintaining the control on the situation means that we would have to go back to Milwaukee. And I don't feel the expense involved in maintaining the control on it is warranted by the saving of a few patches that you deliver.

I am proposing that we eliminate the first sentence: "A member is eligible for one award in the following categories."

TESSMAN: Do you want to eliminate the words: A member is eligible for one award in each of the following categories during the ABC fiscal year Aug. 1-July 31, the first time such an award is earned?

SHINDLER: Yes.

TESSMAN: And to substitute in its place, go back to the original proposal, which merely said: Rule 55b awards to be provided?

SHINDLER: Yes.

LUSK: You have then the motion before you, a motion for amendment. Is there a second?

CARL KLATT, Gr. St. Louis B.A.: For the reason that it is impossible to administer this program once you have self-processing associations responsible for the award distribution, I second this motion.

LUSK: You have the motion before you. Is there any discussion on the amendment?

KLATT: I was going to mention one other objection during my presentation. There are 2,800 associations, of which at least 85% have 500 members or less. I can see no problem with verification in the larger associations with a computer program. What do you do with the 700s? How do you verify those, since there is only one award a year?

LUSK: Anybody else care to be heard?

CARMINE NAPOLI, Palm Beach Co. (Fla.) B.A.: I am the association assistant secretary-treasurer and I give out all of the awards, have them in my computer and I know how many people have shot what scores and when, including every 700 that is shot. So there is no reason why I think they should be getting more than one award.

An association of 8,000 or more members, your mail cost will increase. I feel that this amendment should be defeated.

KLATT: We sat in the data processing seminars yesterday, and they told us they would not even start on the awards processing programs until this fall, yet the local associations have to administer those programs starting this fall.

Secondly, if I shoot here next week and get a triplicate score, how do you verify that back to what I did in St. Louis?

GENE DORRIS, Gr. St. Louis B.A.: I can't agree that we should take anything away from the bowlers. If they earn two patches, give them two or three patches.

RICHARD WACEWSKI, Ft. Worth (Texas) B.A.: On the 700 award application there is a block that the bowler signs and indicates if he received a 700 award for this year? That should eliminate the administration problem.

I would like to call for the question on the amendment.

LUSK: We have before us then the amendment to the amendment. And that amendment deletes the eligibility portion of Rule 55, and we return back to "awards will be provided for."

All those in favor of the amendment to the amendment say aye. Those that are opposed, no. The ayes have it, and we will return to the original wording.

You have before you then the amended amendment.

WOOLF: Mr. Chairman, the decision on the amendment to the amendment automatically elects the amendment.

LUSK: Is there any other discussion? Hearing none, all that are in favor of the amended Amendment 33 say aye. Those opposed, no. By your action you have adopted amended Amendment 33.

Amendment 34 has to do with ABC Rule 101a permitting the sanctioning of leagues playing a modified game of American tenpins, providing ABC requirements remain in effect, except those directly affecting the modified format.

It was proposed by the ABC Rules Committee and is recommended for adoption by the Board of Directors. That is the motion before you. Is there any discussion?

HENNESSY: Our council delegates mandated us to vote against this proposal. It is felt that modifying the game will not increase membership by having more leagues sanctioned.

I don't believe there are any leagues in our area that are not sanctioned because they are using this no-tap, 3-6-9 or what have you. We feel that it is making a travesty of the game.

The biggest reason that our membership or leagues are dropping are not for this reason that these leagues are not sanctioned. It is because of economics.

We are talking about accepting summer league averages, and here we are going to sanction leagues the average of which cannot be used. It concedes pins, which is a violation of ABC rules.

We have a similar amendment for tournaments. We have no objection to that one.

LUSK: I was going to take 34 and 38 together, but you have a divided opinion there, so we will keep going with No. 34.

BARNHART: At our council delegates meeting it was felt that offering these leagues services such

The ABC Apparel Program booth drew a lot of interest from Seminar attendees.

as bonding and materials is okay, but we should not initially offer awards to these leagues.

Therefore, our council delegates instructed us to present an amendment deleting the last sentence, that no award services will be provided to these modified format leagues.

LUSK: Is there a second to this amendment?

WEINSTEIN: I will second the motion just for a matter of discussion.

LUSK: The amendment is to delete "ABC award recognition would be provided as long as all conditions of the board approval have been met." Is there any discussion?

HAW: I don't think you can preclude any member from getting an award that he earns, even though he may be bowling under a different format. I think that is a situation you are not going to be able to deal with.

KETTELHUT: I am a member of the Rules Committee. I would merely put emphasis on what Bernie Haw has said. It would be completely illogical to sanction a form of play and have a man roll an honor score under certified conditions and not award him.

DAVID AUERBACH, Eastern Long Island (N.Y.) B.A.: I am for the amendment because if I have to go out and verify it, how do I know in what format it was?

DUNCAN MACPHERSON, Albany, N.Y.: We found there are a number of other formats going on and we are looking to promote bowling. I don't think we want to try to entice people who have not been bowling in sanctioned leagues to come into an organization and immediately limit what that organization can provide to them.

Secondly, I think just by taking out that sentence, the amendment would in fact remain silent on the awards program, and I'm not sure it would in fact do what the proposer intended it to do.

KLATT: Being one of the co-proposers of the amendment to the amendment, the views in St. Louis were that the awards program for these other types of leagues and/or tournament play, such as no-tap, would be in their own category and, as such, be administrated.

We don't have the resources to suggest to the national office an awards program. We feel that they should come up with that. The current awards program for a different form of bowling, we felt was inadequate.

LUSK: We will vote on the amendment to the amendment. This is to strike from the proposal: ABC award recognition will be provided as long as all conditions of award approval have been met. Those in favor say aye. Those that are opposed, no. The amendment to the amendment is defeated.

We are now back to the original recommendation, which is adoption by the Board of Directors of Amendment 34.

Does anybody care to speak to that?

JIM BOHLKEN, Virginia B.A.: I have a question in how it will be handled on the sanction form. Will the league check the type of a format?

How are you going to separate the averages that are bowled on Scotch doubles or no-tap leagues?

LUSK: That would come under administration, and I am informed that will be brought up at the shop talk tomorrow to get some ideas.

KETTELHUT: This is really something for bowlers who participate in this form of competition, anyway. And why not sanction it and take benefit of it?

I move for the adoption of the proposal as recommended.

WALTON: I make a motion to defer this amendment.

LUSK: Is there a second?

KEITH KORINEK, Chicago Metropolitan B.A.: I second that motion.

LUSK: You have before you a deferral of the amendment with a second. Is there any discussion?

PALUMBO: I am a member of the Rules Committee. I speak against deferral. It has been studied by the Joint Rules Committees for the last two or three years. It has been refined and refined further by the WIBC, and there is no real reason why we should defer it. I did not hear a reason for deferral.

I don't think we are talking about the awards because the second amendment obviously shows that some people here still want to give the awards.

We are looking to sanction some of these competitions so that we can get some of these people out there protected, and not just to get a couple of dollars into the till.

You've got a whole new ball game out there and a new bunch of people who we can sanction and become a part of our organization. I see no reason for deferral.

ED WISE, Cedar Rapids (Iowa) B.A.: I support deferral for one simple reason: Most of the bowlers here are board members, who, by our own constitution, are not able to bowl in unsanctioned leagues. You need to look into that before trying to sanction something that has never been sanctioned before.

CHUCK LOCKRIDGE, Gr. Baltimore B.A.: I support deferral. The reason for that is the fact that this does not address the situation as far as 700 or 800 series, unless you are suggesting conceding of pins, and I am sure that you are not doing that.

I do believe that it needs further study by the Rules Committee.

LUSK: That is covered in the rule.

DON GATES, Syracuse (N.Y.) B.A.: The way the people are opposing this thing, they seem to think that if they defer it or they oppose it, that it is going to go away. It is not.

Automatic scoring systems are going to adopt probably even more games than the ones we've got right now. And those games are going to need the services of this organization. If they are going to exist, they will get it from someplace, if not from us, perhaps the proprietors will provide their own sanctioning organization.

These leagues are going to proliferate and we might as well sanction them.

AL ZEH, Nation's Capital Area B.A.: We are totally against this proposal, and support deferral of it. Unless we all forgot, I believe the name of our game is American tenpins, not modified anything.

KLATT: I am for the amendment so that we can afford to give bonding to a no-tap tournament. We are giving the bowlers what they ask for, because most of those bowlers in these tournaments are ABC members and they want to see what ABC is doing for them.

The Rules Committee looked at this for two years. Why wasn't anything proposed in the way of awards for a Baker system type of league or tournament?

It seems there is no consideration given to part of the administrative nightmare that is going to be happening.

KEN KREGER, Tonawanda (N.Y.) B.A.: I am in favor of deferral. I would like to give you gentlemen one other thing to think about. If you are going to award these high scores, why not recognize the averages through their competition?

TOM ADAIR, Gr. Seattle B.A.: I call for a vote.

LUSK: The question has been called. This is on the motion for deferral. All those in favor of deferring say aye. Those opposed no. By your action you have deferred Amendment 34.

Proposed Amendment 35 has been withdrawn.

Proposal 36 would require the league treasurer to retain league financial records for 90 days following completion of the league. This has been amended to add the words "he shall" at the beginning of the proposal.

The proposal is recommended for adoption by the Board of Directors as amended. Do you have any discussion?

PAT KELLY, Eastern Long Island (N.Y.) B.A.: I would like to remind everybody the final league financial statement is not the gospel. That is nothing more than a yearly summary composed by the treasurer, and the source of this is every record, from the payment envelope of the team to the last bank statement received.

Any league member has the right to challenge that financial statement if a question arises. He can't do that if the records aren't there. We have to maintain them for some time period.

TOM DE CHALUS, Deer Park, N.Y.: I am a member of the Rules Committee. We felt that there might be other circumstances where these records would be necessary. Perhaps there have been some challenges filed at the end of the season that haven't reached the association yet.

We have had hearings where these records were asked for and the treasurer has told us they have been thrown away.

ALBERT SNITE, Gr. Philadelphia B.A.: I would like to propose a very minor amendment, that the records be retained for 120 days instead of 90.

If the league ended in May, 90 days would put it in the middle of the summer. The treasurer could throw the things away before the league reconvened in the fall and legitimately have disposed of the records.

LUSK: Is there a second?

KELLY: I will second the amendment.

LUSK: You have then before you the amendment to the amendment which changes from 90 days to 120 days. Is there discussion on the amendment to the amendment? If not, those that are in favor of that amendment say aye. Those that are opposed, no. By your action you have amended the amendment to read 120 days.

We now have before us the amended motion which is recommended for adoption by the Board of Directors. Do you care to speak to that?

JOHN SIMANELLA, Gr. Cleveland B.A.: Every good secretary automatically gives a statement of income and expenses. It is hard enough to get secretaries to take care of the leagues. And if you put more responsibilities on him, we will not get volunteers.

MATT LANG, Gr. St. Paul (Minn.) B.A.: At the rules seminar yesterday, we had a little discussion that any person could serve as officer of the league. There could be a possibility of a female serving as the treasurer of a men's league. I don't think we should use the words "he shall," I think that we should use the words "the treasurer shall."

LUSK: Well, this is a men's rule book, as I understand, and I am sure that you can connotate either he or she when it comes time to enforce the rule.

HAW: I have a concern that this opens up the possibility if the secretary cannot produce these records, you are going to have a possible suspension for malfeasance of office. Am I correct?

LUSK: I would assume there is that possibility.

GORDON BOND, Gr. Columbus (Ohio) B.A.: I don't disagree with the proposal. There are a lot of the houses in our area that have in-house banking, and this does not cover that situation.

AUERBACH: Concerning the comments about the extra work that the secretary or treasurer has to do under this amendment, I don't see any. He puts his records in a box at the end of the season and keeps them there.

ADAIR: I agree with that last gentleman. I have been a league secretary for 18 years. Every league member receives a financial statement sheet on the final sweeper night. I hold that till next fall, and then it is destroyed.

LUSK: I am going to ask for a vote. The recommendation before you is for adoption by the Board of Directors. Those that are in favor of that recommendation say aye. Those that are opposed, no.

By your action you have adopted proposal 36.

Proposed Amendment 37 concerns when a player is tardy, allowing him to receive one-tenth of his absentee scoring for frames missed. The recommendation on the motion is for adoption by the Board of Directors. Is there any discussion?

KIDWELL: I am a member of the Rules Committee. The amendment will not conflict with the league rule. It is what we need to speed up the game for those that have tardy players. It also is compatible with the WIBC rule.

LUSK: Any other discussion on proposed Amendment 37? There appearing to be none, all those in favor of the recommendation for adoption say aye. Those that are opposed, no. By your action you have adopted proposed Amendment 37.

Proposed Amendment 38 permits sanctioning tournaments playing a modified game of American tenpins, providing ABC requirements remain in effect, except those directly affecting the modified format.

The proposed amendment is recommended for adoption by the Board of Directors. Is there any discussion?

HAW: We have voted to defer the previous amendment that relates to this matter. I make the motion that we defer this.

LUSK: The motion is for deferral. Is there a second?

Edward Leahy of the Eastern Long Island (N.Y.) Bowling Assn. was one of many delegates who spoke during the Legislative Session.

LLOYD STONER, Lansing (Mich.) B.A.: I second the motion.

LUSK: You have before you the motion properly seconded to defer Amendment 38. Is there a discussion on the deferment?

JAMES MC GUIRE, Central Connecticut B.A.: I made sure I got down here this time, because the previous question was moved before I got to speak.

I think we avoid an issue when we always keep voting for deferring. If you defer it, it is going to come back next year.

I hope you will all vote not to defer this amendment, and instead let it come back on the floor, so you can soundly defeat it.

I worked city and state tournaments for many, many years. And only in the last couple of years have I had the good feeling before the tournament of apprising the members of the fact that they are eligible for TEAM USA, and we are engaged in the sport of bowling.

If you want to play games, play games. But if you want to belong and participate in a sport, then bowl and keep the rules that way.

LUSK: Is there any other discussion on deferral?

PALUMBO: The Rules Committee did support this proposal. In the interest of consistency it would seem a little bit strange for us to come back next year with one half of the package. I would like you to support this proposal as well. However, if it is the feeling of the body, this should be deferred as well and let the whole package come back and defeat them both soundly next time. Let's not do half a job.

GATES: I don't think I would agree on that, because this is a little bit different, because in tournament play what you are doing is you are protecting your bowlers. This competition certainly proliferates in our industry.

The bowlers that participate in those need ABC protection from unscrupulous directors, and they need to have the assurance that the event is honest.

I don't think it has anything to do with whether or not we are sacred to our sport or not. We're just protecting our members who are participating in an existing game.

HAW: In respect to the deferral, I agree with Mr. Palumbo. I do not believe that we can make one set of rules modifying the games for leagues and make another set of rules modifying tournaments. I think we need to consider the whole package.

ANONYMOUS: I call for the question.

LUSK: The question has been called. Those that are in favor of deferral say aye. Those that are opposed, no. By your action you have deferred Amendment 38.

Proposed Amendment 39 allows expense fees for special features, provided such fees are designated on the entry form and poster. The amendment is recommended for adoption by the Board of Directors. Is there any discussion?

PALUMBO: The Rules Committee has studied this proposal and it sees no problem with it.

LUSK: Any other discussion on proposed Amendment 39? There appearing to be none, those that are in favor of adoption say aye. Those that are opposed, no. By your action you have adopted proposed Amendment 39.

Proposed Amendment 40 gives tournament management the authority to establish specific rules determining which scores will be used for all events competition. It is recommended for adoption by the Board of Directors.

Is there anybody who cares to be heard?

PALUMBO: The Rules Committee also has studied this proposal and it is optional. If they had nothing on the entry blank, our rule would prevail, and we feel that would be for the best. On that basis, we recommend this for approval.

JOHN SCAIA, Syracuse (N.Y.) B.A.: I just want to point out the fact that it seems when a question is called, you have occasion to call on a member of the Rules Committee so that he can stand for the committee, when it is documented that they are in favor of it. Couldn't that only be instituted when a question is raised? I feel it very demeaning, frankly.

LUSK: Allright. Is there any other discussion?

PALUMBO: I would like to address that. There have been past occasions where there were no discussions, and it was felt the body here did not have full information as to the reasons for the recommendation.

So our purpose in rising, particularly when there is no discussion, is to inform the body as to our reasons.

For example, last year you had a summer average situation. There was no discussion and we felt that you all knew our reasons. But obviously you didn't.

LUSK: You have before you the recommendation for adoption of proposed Amendment 40. Those that are in favor say aye. Those that are opposed, no. By your action you have recommended adoption of Amendment 40.

Proposed Amendment 41 removes requirements from the equipment specifications manual that synthetic pins must meet the same weight and balance specifications as standard wood or plastic-coated wood core pins. It is proposed by the Equipment and Specifications Committee.

It is recommended for adoption by the Board of Directors. Is there discussion?

KLATT: Yesterday in the seminars Mr. Dalkin gave us data on the pins and the tests that they went through to be able to bring pin testing into the laboratory. And during the discussions he stated that the pins that are currently approved all came real close to this curve.

It looks to me like you've got a manufacturer that has a pin that cannot be within the scoreability lines based on our specifications, so we are going to change the specifications for him.

If we do that, who is to say we won't let a bowling ball be 20 pounds in two years. For that reason I think that we should defeat this proposal.

BOB HALLEEN, Peoria, Ill.: I am a member of the Equipment Specifications Committee. No, it is not the intent to try and discard the scoreability. As Mr. Dalkin pointed out yesterday, all of the pins would have to meet the same criteria. It is only to allow synthetic pins an opportunity to set their own specifications, the same way wood core pins set theirs today.

KLATT: The questionnaire in the present specifications is a wood pin and a plastic-coated with a wood core, which are two different types of pins, have to meet the same specifications for weight, and now here we are proposing to remove any weight specifications at all to a nonwood or synthetic pin, which is the third type of pin.

JEFFTHROE WALKER, Mercer Co. (N.J.) B.A.: I call for a vote.

LUSK: The question has been called. The motion before you, there is a recommendation for adoption by the Board of Directors. Those that are in favor say aye. Those that are opposed, no. By your action you have adopted Amendment 41.

Gentlemen, Resolution I:

WHEREAS, the delegates at the 1977-78 Convention authorized the ABC Board of Directors to amend any provisions currently in the Rule Book with regard to the lane dressing procedures and to permit any such revision in dressing procedures to be put in force immediately, and

WHEREAS, research and testing involving conditioning of lanes is continuing

NOW, THEREFORE BE IT RESOLVED, by the delegates in annual session on March 18, 1988, that if during the 1988-89 season tests demonstrate that revision in the lane dressing procedures are in order that the ABC Board of Directors prior to Aug. 1, 1988 and the Boards of Directors of ABC and WIBC on or after Aug. 1, 1988, shall be authorized to amend the rules governing such lane dressing procedures. Any rule so amended shall become effective as designated by the Boards.

BE IT FURTHER RESOLVED, that any such revision approved by the Boards under this interim procedure shall be submitted to the ABC Delegates at the 1989 Convention and to WIBC for action.

Respectfully submitted, Equipment Specifications Committee.

It is recommended for adoption by the Board of Directors.

Is there any discussion? There appearing to be none, all those that are in favor say aye. The resolution carries.

Resolution II:

WHEREAS, The Equipment Specifications Committee and Test Facility at Bowling Headquarters has been conducting an extensive study on the coefficient of friction characteristics of bowling balls, including composition of materials and the practice of altering the surface of bowling balls, and

WHEREAS, preliminary findings have demonstrated that instrumentation developed to measure these properties does produce repeatable and significant data, and

WHEREAS, if continuing tests determine that scoring is appreciably affected,

NOW, THEREFORE BE IT RESOLVED, by the delegates in annual session on March 18, 1988, that during the 1988-89 season the ABC Board of Directors prior to Aug. 1, 1988 and the Boards of Directors of ABC and WIBC on or after Aug. 1, 1988 shall be authorized to amend any specifications currently in effect or adopt new specifications related to the surface characteristics of bowling balls. Any rule so amended shall become effective as designated by the Boards.

BE IT FURTHER RESOLVED, that any such revision approved by the Boards under this interim procedure shall be submitted to the ABC Delegates at the 1989 Convention and the WIBC for action.

Respectfully submitted, Equipment Specifications Committee.

It is recommended for adoption by the Board of Directors.

Is there any discussion on the resolution?

LEO SALINAS, Brazoria Co. (Texas) B.A.: This one kind of scares me a little bit. We have 28 urethane balls, as stated this morning, currently available. And all of a sudden we are going to get data and cut them out during the year. Why not wait until the '89 Convention to decide this?

Granted it only is giving the power to do it, not saying necessarily that you will, but it concerns me.

MC KAY: What we are asking for here is the interim power to be able to handle any particular new bowling balls that would come out. We are right now in the process of trying to expedite the investigation into the coefficient of friction of bowling balls. And as we get further into this, we would hope that we would be able to get your approval to be able to take some action if it would be deemed necessary to put restrictions on them at this time.

LUSK: Is there other discussion? Hearing none, all those that are in favor of adoption, say aye. Those opposed, no. By your action you have adopted this resolution.

Resolution III:

WHEREAS, an alternative lane dressing rule was implemented Aug. 20, 1966; and

WHEREAS, the lane dressing measuring equipment was implemented Jan. 1, 1988; and

WHEREAS, the inspection procedures for determining compliance with the rule have not been changed; and

WHEREAS, the information being gathered by the present inspection procedures may be more than necessary to determine compliance with the rule,

NOW, THEREFORE BE IT RESOLVED, by the delegates in annual session on March 18, 1988, that if during the 1988-89 season it is determined to be in the best interests of the membership to revise inspections and/or procedures required for honor scores, the ABC Board of Directors shall be authorized to amend the rules governing such inspections and/or procedures. Any rule so amended shall become effective as designated by the Board.

BE IT FURTHER RESOLVED, that any such revision approved by the Board under this interim procedure shall be submitted to the Delegates at the 1989 Convention for action.

Respectfully submitted, The High Score and Awards Review Committee.

It is recommended for adoption by the Board.

Is there any discussion on this resolution? There appearing to be none, all those in favor say aye. Those opposed, no. By your action you have adopted this resolution.

We have one other Resolution by the Chairman of the Finance and Budget Committee.

MAX SKELTON, Ada, Okla.: Each year we approve or set aside $250,000 for the National Bowling Council in the event that the Bowling Proprietors, the WIBC, AMF and Brunswick all put up a similar amount.

We would like to propose adoption of this Resolution. I move the adoption of that resolution.

BEVINS: I second it.

PRESIDENT SWEENEY: So a call for the question for the approval of the NBC Resolution. All those in favor say aye. Those opposed, I hear no opposition, so the Resolution carries.

I would like to thank Jim Lusk for the fine job he did today. I would like to give the election report. There were 1,218 votes cast, 1,174 voted with the Nominating Committee as the nominees were presented, 29 votes were voided and there were 15 write-ins.

I declare the election completed, and elected those on the ballot.

At this time I would like to call for any unfinished business.

Is there any old business and new business?

I will call on Ray Arnold.

ARNOLD: I would move that the minutes of the previous session as published be approved and that all of the acts of the American Bowling Congress, its officers, agents, directors and servants in the furtherance of Congress business since the last annual meeting of the American Bowling Congress be approved and ratified.

SWEENEY: Do we have a second?

DE CHALUS: I second the motion.

SWEENEY: All those in favor signify by aye. Opposed, the same.

It is so ordered.

I want to thank all you men for all of the kindnesses you have shown me throughout my term as vice president and president.

And we adjourn this meeting.

(At 4:55 p.m., the Convention of Delegates was concluded.)

ABC membership tops in sports

The American Bowling Congress again is the world's largest sports membership organization with 3,313,491 members during the 1987-88 season through 2,819 local associations in the United States, Canada, Puerto Rico and at U.S. military bases worldwide.

The Greater Detroit B.A. continued to be the largest local affiliate with 110,324 members. Showing that ABC reaches far and wide to service its members in the smallest communities and military bases, there are 498 associations serving less than 100 members.

In the 1986-87 season, ABC had 3,424,205 members participating in 125,855 leagues.

ABC members participated on 1,351,663 teams in 121,648 leagues during the 1987-88 season. An indication of how many members bowled more than once weekly showed when it was estimated 3,911,483 men were needed to fill those leagues.

Of the leagues 82,491 (70.2%) were mixed, 34,999 all men's, 3,946 all senior and 212 military all men's leagues. As could be expected, mixed leagues of two men either paired with two women or doubles, were the most popular, 54,691 with that makeup. 17,152 had three men, meaning the leagues were either three men and one or two women, or three player leagues allowing all male and all female or mixed teams.

In the all men's leagues, 25,140 were five player teams while 5,498 were four player teams. In addition, the military showed 91 five player leagues and 81 four player leagues. No size or mixed format breakdowns are available for senior leagues.

There were 43,746 leagues with between nine and 12 teams and 43,444 with between five and eight teams. Another 1,988 leagues boasted 24 or more teams. The average league size during the season was 11.1 teams.

California by far had the most leagues — 11,514 — but was only fourth among the states in membership with 242,993. Michigan once again was the leading membership state with 280,383 members in 8,542 leagues, but New York was a close second with 276,561 in 9,517 leagues.

Among local associations, the Chicago Metropolitan was a distant second to Greater Detroit with 65,094 members. Eastern Long Island was third with 38,527 and Nation's Capital Area had 38,141. Minneapolis District moved into the top five with 32,455 and its neighboring city St. Paul was 26th with 17,754.

All names of the top 25 local associations remained the same as from 1986-87, only some positions changed during 1987-88. The biggest jump was by Indianapolis which moved from No. 22 to No. 20.

Canada had 51,272 members in its 39 associations while there were 38,979 ABC members in other associations outside of the United States. Of these, 30,556 were members of the armed forces for whom the ABC provides free membership.

97 new centers certified in 1987-88

Of the 8,279 bowling centers certified by the American Bowling Congress during the 1987-88 season, 97 were newly constructed with 1,854 lane beds, an average of 19.11 per new center.

Two bowling center trends continued during the season. First, small centers either outdated or beyond repair continued to close, and high property values in some areas forced the closing of other centers due to economics.

The average size of a 1987-88 bowling center was 18.76 lanes, up from 18.6 lanes the previous season. In the record 1962-63 season, there were 11,476 centers with 163,323 lane beds, an average of 14.23 lanes per center.

For the first time since the 1957-58 season, the number of centers in the United States dipped below 8,000 as 7,923 were certified, down 108 from the previous season. 150,152 U.S. lane beds were certified, a decrease of 1,160 from the previous season. The ABC also certified 356 centers in Canada, Puerto Rico and at U.S. military bases worldwide. This was an increase of one center while there were 190 more lanes than the previous season with 5,172.

The increase in new centers can be compared with the 1986- 87 season when only 77 opened with 1,782 lane beds In addition, during the past season 15 centers added 131 lanes and 19 others replaced 310 lanes.

This seems to indicate another trend of expansion and remodeling of existing centers which, combined with the opening of more new centers, gives optimism for the future growth of the sport.

ABC issues 18,631 honor scores

The American Bowling Congress recognized 10,085 perfect games during the 1987-88 season, along with 4,362 299 games, 2,159 298s and 2,025 800 series, all records.

The 300 game total was 1,548 higher than the previous season, and 3,618 more than the 1985-86 season. In the 1986-87 season, there were 3,928 299s, 2,023 298s and 1,644 800s.

During the 1977-78 season, just one decade ago, there were 1,912 300 games, 977 299s, 593 298s and 274 800 series.

In addition to the honor score games, another 8,011 members were honored for achieving 11 strikes in a row in a game. This means that 24,617 bowlers strung at least 11 strikes during the season, almost 3,595 more than the previous season.

ABC provides one award per season for each honor score and 8,760 individuals received 300 game awards in 1987-88, meaning the other 1,325 were recognized by certificates to those receiving awards. Only 210 of the 299s were duplicate awards while only 41 of the 298s were duplicates. For 800 series, 1,781 received awards and there were 244 duplicates.

The amount of 300 games averaged out to an estimated one in every 32,855 games bowled by ABC members. To arrive at that figure, it is estimated 100 games (90 in league, 10 in tournaments) are bowled during the season by each of ABC's members (3,313,491). That figure is divided by the amount of recognized 300 games.

During the 1986-87 season, the ratio was one of every 40,110 games bowled while in 1985-86 the figure was one in every 56,047.

The Congress also issued 71,291 700 series emblems during the season, 11,485 more than the 1986-87 season. Another 29,183 700 series bowled by individuals who already received an emblem during the season also were recognized, a jump of almost 10,000 over the previous season.

The Award of Merit, made available to local associations to honor their members with high scores during the season, was issued to 1,926 individuals. High individual games within the association, other than 300s, 298 or 298s are eligible for the high game Award of Merit, while the highest series, even if it is above 800, also is eligible for the honor. If the same individual earns recognition in both categories, one award is issued indicating both achievements.

As for the Special Achievement chevrons, the following were issued during the season: Triplicate, 26,131; Big Four (4-6-7- 10), 3,840; 7-10, 3,353; 100 Pins Over Average Game, 34,535; 150 Pins Over Average Series, 31,026; All Spare, 16,079; Dutch 200, 4,520; Senior 75 Pins Over Average Game, 5,951, and Senior 125 Pins Over Average Series, 3,288. It was only the second season for the Dutch 200 award and the total was 745 more issued than during the first season.

All told, there were more than 250,000 scoring awards issued during 1987-88. It is estimated one out of every 2.5 members receive an ABC award each season including league awards.

The ABC Awards Department also prepared 916 certificates for local and state Hall of Fame inductees.

FINANCIAL REPORT 1987-88

To the Board of Directors of American Bowling Congress:

We have audited the accompanying balance sheets of AMERICAN BOWLING CONGRESS (a Wisconsin corporation without capital stock and not-for-profit) as of July 31, 1988 and 1987, and the related statements of income and expenses and changes in fund balance and statements of cash flows for the years then ended. These financial statements are the responsibility of management. Our responsibility is to express an opinion on these financial statements based on our audits. The summarized financial data for Bowlers' Building Corporation (BBC) contained in Note 2d are based on the financial statements of BBC which were audited by other auditors. Their report has been furnished to us, and our opinion, insofar as it relates to the data in Note 2d, is based solely on the report of the other auditors.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of American Bowling Congress as of July 31, 1988 and 1987, and the results of its operations and its cash flows for the years then ended in conformity with generally accepted accounting principles.

As discussed in Note 4 to the financial statements, ABC changed its method of determining pension cost in the year ended July 31, 1988.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary schedules (Exhibits I and II) are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

1. Corporate Organization

The American Bowling Congress (ABC) is a service oriented sports organization formed to adopt and enforce uniform playing rules and conditions for the sport of American Tenpins. It provides programs and services to its membership for their participation in organized bowling and encourages the creation and development of events for amateurs. The goal of ABC is to promote, foster the integrity of, and enhance the enjoyment of tenpin bowling.

2. Summary of Significant Accounting Policies

(a) Method of accounting —
The books of account of ABC are maintained on the accrual basis, except for certain membership dues.

(b) Property and equipment —
The cost of property and equipment acquired is depreciated using the straight-line method of depreciation. Tournament equipment is depreciated over an eight-year life and office furniture and equipment over five to ten years.

(c) Membership dues recognition —
Membership dues are recognized when remitted, the majority of which are received during the first eight months of the fiscal year. A portion of the membership dues received is allocated to magazine revenue and advertising. This revenue relates to magazine subscriptions issued to each ABC league and is based upon one-half of the full subscription price. A summary of the dues allocated is as follows:

	Year ended July 31, 1988	Year ended July 31, 1987
Total membership dues received	$8,257,829	$8,465,283
Less - Dues allocated to magazine revenue	(210,908)	(211,504)
Net membership dues	$8,046,921	$8,253,779

(d) Investment in Bowlers' Building Corporation —
ABC's investment in Bowlers' Building Corporation (BBC) is accounted for using the equity method. BBC holds title to the land and building utilized by ABC as its national headquarters. Summarized financial information for BBC for fiscal 1988 and 1987 is shown below:

	As of July 31, 1988	As of July 31, 1987
Cash	$ 15,457	$ 7,411
Receivables	8,095	4,657

Total assets	$3,719,296	$3,824,851
Accounts payable	$ 5,172	$ 4,025
Real estate tax accrual	140,250	127,250
Equity —		
American Bowling Congress (ABC)	1,786,937	1,846,788
Women's International Bowling Congress (WIBC)	1,786,937	1,846,788
Total liabilities and equity	$3,719,296	$3,824,851

	Year ended July 31, 1988	Year ended July 31, 1987
Operating expenses	$430,847	$410,353

(e) Fund balance —
The fund balance is composed of two separate funds, the operating and the tournament, detailed below:

	Operating	Tournament	Total
Balance, July 31, 1986	$7,011,649	$ 799,142	$7,810,791
Net income	704,481	129,156	833,637
Balance, July 31, 1987	7,716,130	928,298	8,644,428
Net income	41,406	192,412	233,818
Balance, July 31, 1988	$7,757,536	$1,120,710	$8,878,246

The Finance and Budget committee of ABC designates portions of the operating fund for specific purposes. At July 31, 1988, the operating fund consists of the following:

Designated funds —	
Advertising program development	$ 120,000
International bowling activities	250,000
Operations	930,000
	1,300,000
Fund balance not designated	6,457,536
Operating fund balance	$7,757,536

(f) Investments —
Investments are stated at cost which approximates market. Summarized investment data is shown below:

	As of July 31, 1988	As of July 31, 1987
Operating fund	$4,565,000	$4,941,950
Advance tournament deposits	821,380	933,314

Accrued interest receivable	58,058	18,593
	$6,498,480	$6,851,857

Advance deposits are collected for the next year's National Tournament. Amounts received and any interest earned are both deferred as the funds are to be used exclusively for next year's tournament.

3. Income Tax Status

The Internal Revenue Service has issued a determination letter dated Aug. 4, 1986, granting ABC an exemption from Federal income taxes under IRS Code Section 501(c)(3). ABC also is exempt from State of Wisconsin income taxes.

4. Pension Plan

ABC employees are covered under the ABC Retirement Plan (the Plan). The Plan also covers employees of the Young American Bowling Alliance, Inc. (YABA). ABC's policy is to fund the minimum required contribution as determined by the actuary. Due to the overfunded status of the plan, however, no contributions have been required in fiscal years 1988 and 1987. The total pension expense was $77,430 and $222,047, of which $10,840 and $27,219 was charged to the YABA in fiscal years 1988 and 1987, respectively.

As of Aug. 1, 1987, ABC adopted Financial Accounting Standards Board Statement No. 87, "Employers' Accounting for Pensions." Accordingly, ABC changed its method for determining annual pension expense for financial reporting purposes. This change increased net income by $130,905. ABC, however, continues to use the Frozen Entry Age Actuarial Cost method to determine annual contributions to the Plan.

The net periodic pension cost components for fiscal year 1988 are as follows:

Service cost-benefits earned during the year	$261,180
Interest cost on projected benefit obligation	391,580
Actual return on assets	(327,089)
Net amortization and other components	(248,241)
Total 1988 pension plan expense	$ 77,430

The principal actuarial assumptions used for fiscal year 1988 were:

	As of July 31, 1988	As of Aug. 1, 1987
Measurement of projected benefit obligation:		
Discount rate	8.0%	7.75%
Long-term rate of compensation increase	6.5%	6.5 %
Long-term rate of return on plan assets	9.5%	9.5 %

The funded status of the Plan is as follows:

	As of July 31, 1988	As of Aug. 1, 1987
Actuarial present value of benefit obligations:		
Vested	$3,890,733	$3,763,889
Nonvested	268,532	266,305
Accumulated benefit obligation	4,159,265	4,030,194
Effect of projected future salary increases	1,247,877	1,186,100
Projected benefit obligation	5,407,142	5,216,294
Plan assets at market value	5,696,915	5,671,949
Plan assets in excess of projected benefit obligation	289,773	455,655
Unrecognized net asset at Aug. 1, 1987, net of amortization	(832,690)	(884,733)
Unrecognized net loss	36,409	—
Net pension (liability) recognized in the balance sheet	$ (506,508)	$ (429,078)

The net liability amounts are included in other accrued liabilities in the accompanying balance sheets.

5. National Bowling Hall of Fame and Museum, Inc.

On March 27, 1981 during the ABC National Convention, the delegates approved and ratified a resolution stating that the ABC, along with the WIBC, would guarantee the continuation of the National Bowling Hall of Fame and Museum, Inc. (NBHF&M) operations for a period of 10 years. Accordingly, this guarantee has been carried out in the form of advances by ABC and WIBC to NBHF&M. During 1988, the ABC and WIBC, along with AMF, Inc., Brunswick Corporation and the Bowling Proprietors Association of America (BPAA) each pledged $25,000 for fiscal 1989 to the NBHF&M to help finance operations. After the consideration of the reduction in NBHF&M's anticipated operating loss due to the aforementioned pledges, ABC's fiscal 1989 budget indicates an additional loan of $10,000 will be required to finance NBHF&M operations for that year.

Also, in 1986 prior borrowings of NBHF&M (for the construction of the National Bowling Hall of Fame and Museum) were repaid by additional ABC and WIBC advances. All advances have been secured by a mortgage on the property in favor of ABC and WIBC.

The notes receivable from the NBHF&M are interest-free and have a due date of July 31, 1989, unless extended by ABC. Management's intent is to not call for payment at the due date of the notes, unless NBHF&M has the financial ability to repay. Formal extension of the notes is planned. Since collection is not anticipated at this time, the notes have been fully reserved for by charges to expense of $25,000 and $24,000 in 1988 and 1987, respectively.

6. Note Receivable from Young American Bowling Alliance, Inc.

The note receivable from the Young American Bowling Alliance, Inc. is interest-free and had a due date of Aug. 1, 1988, which was subsequently extended to Aug. 1, 1989. A $10,000 payment was received in fiscal 1988. It is management's intent, however, to not call for payment on the remainder of the note. Since collection of the note is not anticipated at this time, the note has been fully reserved.

7. Line of Credit

ABC has a bank line of credit arrangement in the amount of $500,000. There are no compensating balance arrangements. There were no borrowings under this line at July 31, 1988 or 1987, or during the years then ended.

8. Joint Administration of Equipment Specifications Department

On Aug. 1, 1988, ABC entered into an agreement with WIBC to jointly administer the Equipment Specifications Department ABC sold to WIBC a one-half interest in the furniture and fixtures, lane dressing measuring equipment, and certain lane certification and inspection equipment and supplies located in this department. The total sale price of these items was $325,942, of which $30,034 was received in August, 1988. The remaining $295,908 is a receivable from WIBC.

9. Reclassifications

Certain reclassifications have been made to the 1987 amounts to conform with the 1988 presentation.
